Permancy Repair Cream with silicone

Accelerates healing of scars and wounds

Silicone Scar cream

Key Ingredients

- 36% PDMS(100% medical grade)
- Hydrolyzed collagen
- Ceramide
- Mimosa
- Lanolin
- Carcumin extract
- Calendula
- Bisabolol
- Chamomile extract
- Avocado oil

- Permancy cream creates an optimal environment for the normalization of the inflammatory response
- Recovery of skin damage caused by laser treatment, dermabrasion, peeling, phototherapy
- Appropriate for the open wounds with no secretion

How to use: Apply a thin layer on the scar 3-4 times daily.

- Hydrates and protects superficial wounds and compromised skin
- Improves the visible outcome of the treatment
- Provides symptomatic relief (redness / discoloration, itching)

Permancy Silicone Scar Gel

A super quick drying gel, which has a non-sticky and velvety smooth finish

Clear & odorless

Key Ingredients

- 86% PDMS (100% medical grade)
- Onion extract
- Squalane oil
- Calendula
- Bisabolol
- Plukenetia volubilis Linneo
- Castor oil
- Ginger root extract
- Bellis perennis extract
- Ceramide

- Self-drying gel for the management of hypertrophic scars and keloids
- Permancy scar gel forms a durable, flexible and waterproof sheet, which protects scars from microbial and chemical invasion and helps normalizing collagen production
- Permancy scar gel modulates the level of basic fibroblastic growth factors (bFGF), which have an influence on the formation of hypertrophic scar tissue

How to use: Apply a thin layer on the scar 2-3 times daily.

- Effective for old and new scars
- Used to soften and flatten raised scars
- Use for surgical scars, burns, stretch mark, keloid and acne scars

Permancy Lightening Cream

Targeting preventing hyperpigmentation and dark spot
